SHOTTESWELL Village Hall welcomed some special visitors to Sunday's Breakfast Club as they celebrated the first anniversary of the 'warm hub'.

Charity Warwickshire Rural Community Council established 'warm hubs' as a way of creating affordable and inclusive activities in a community space.

To mark a year since the launch in Shotteswell, Santa visited along with MP Jeremy Wright and Gaydon's fire engine.

As well as enjoying breakfast, with fresh produce supplied by local farm shop Carpenters, visitors could win a Christmas hamper by suggesting new activities they'd like to see in the hall.

Mr Wright said: "It was a

pleasure to help celebrate Shotteswell Warm Hub's birthday. All those involved deserve huge credit for spreading warmth in every sense to the local community."

Jackie Holcroft, WRCC project manager, added: "We're excited about working with the community to create new inclusive social activities in 2022."
